

STATEMENT AWARD

Siltech ROYAL SIGNATURE SERIES DOUBLE CROWN EMPRESS + EMPEROR + RUBY

Siltech Cables are the best interconnects I have heard so far. That fact alone should be enough to give them the BEST PRODUCT 2013 award. Their uniqueness does not end in being the best, however. The influence of the Siltech on the sound can only be compared to upgrading a good component, such as the source or speakers, with one that is outstanding. The cables change our approach to reproduced music, introducing into our dictionary such concepts as "soft resolution", "depth of detail" and "inaudible dynamics". After hearing them nothing is like it was before. Hence our STATEMENT AWARD. WP
